ASSEMBLING DIRECTIONS

Place each piece on a towel and pin to measurements, following the schematic. Steam pieces lightly (except for Mohair and Angora). Let pieces dry completely before removing pins. Sew the pieces together using a yarn needle or crochet them together using the diagrams as follows:

SHOULDERS

- Insert hook into the seam or the back of a st on each side.
- Work a single crochet to join the sts.

If the varn in large enough, you can work through open sts, that is: do not bind off the sts and leave a long enough strand to make one

SIDE SEAMS

- Insert hook into the seam or the back of a st. · Work slip stitch.

SLEEVE SEAMS

- Work in slip stitch
- Work in single crochet

JOINING SLEEVES

- Join the sleeves to the body as follows:
- 1 divide the armhole into three equal lengths and mark them.
- 2 Divide the top of the sleeve in same way, with more or less the same three length as the armhole.
- 3 Match the sleeve cap to the armhole and pin or baste in place.
- 4 Crochet the sleeves to the armhole using single crochet.

After seaming, lightly block the seams on wrong side.

back of a st on each side

THE GAUGE

Before beginning any project, knitting a gauge swatch is highly recommended. As everyone has their own unique style of knitting, checking the needle size to obtain the correct gauge is a necessary step to ensure that your project will fit properly. This prep work will save invaluable time and prevent wasting materials due to a garment that does not fit. Your gauge must match in the number of stitches and rows to the one given in the instructions.

HOW TO KNIT A GAUGE SWATCH

1/2 Back and 1/2 Left Sleeve

Knit the swatch with the main yam used in the project. Carefully read all the instructions written on the skein's label. Knit a swatch measuring at least 15 cm or 6" square in the pattern stitch listed in the Gauge section. If you use selvage stitches in your swatch do not count them in the measurements.

HOW TO COUNT

Mark the center 10 cm or 4" square on the swatch and count the number of stitches and rows in this square.

WHAT IF YOU GET LESS STITCHES THAN ROWS You knit looser. You must therefore use smaller needles.

WHAT IF YOU GET LESS STITCHES THAN ROWS You knit tighter. You must therefore use larger needles

Even if your gauge swatch matches the one given in the instructions. check your knitting after working several centimetres or inches of your first piece to be sure that your gauge remains consistent. Because a gauge swatch is much smaller than an actual knitted piece, your gauge could be looser or tighter on the smaller swatch than it would normally be in a larger piece. If your gauge on the larger piece is other than the stated gauge, change your needle size accordingly.
